2000 National Champion Get of Sire Dallas  
2003 International Red Senior Champion Bull Houston  
And numerous more champions abroad.

As you can see not only is Red Stroke a Championship Bull in the ABBA Showstring but a championship producer of red brahman genetics.

We at Swaner Brahman are extremely excited about the introduction of his daughters into our breeding and embryo transfer program. Red Stroke is currently being used in some of the most prestigious red genetic herds extensively in Central America and domestically.

With his second calf crop being weaned and processed into the showbarn we are looking forward to the upcoming shows in the year 2004-5, they are a powerful set of Red Brahman calves that we have spent a lifetime striving for in our breeding program.

Progeny of Redstroke had a great Show in Houston in 2006, winning with the Calf Champion Bull. Champion Set of Sire. Grand champion and Senior Champion Female Reserve Calf Champion.
